## What Is the Move & Play Learning Lab?

The Move & Play Learning Lab is a high-energy, movement-based learning experience that blends physical activity, STEM concepts, leadership development, and entrepreneurial thinking through interactive games and challenges.

Students learn by moving, collaborating, and problem-solving—creating an engaging alternative to traditional classroom instruction.

## What Students Gain

- Critical thinking & decision-making
- Leadership & teamwork skills
- STEM concepts through hands-on play
- Confidence, communication & creativity
- Physical movement tied to learning outcomes

## Program Goals

- Encourage Entrepreneurial Thinking
- Build adaptability, strategy, and problem-solving skills
- Promote Leadership & Teamwork
- Strengthen collaboration, communication, and resilience
- Connect STEM & Business to Play
- Introduce technology, innovation, and strategic thinking

## STEM Integration

- Science: Motion, force, balance, and physics
- Technology: Motion-sensing games & AI interaction
- Engineering: Strategy, spatial awareness & design thinking
- Math: Patterns, logic, planning & real-world applications

## Who It's For

- Elementary & middle school students
- Afterschool programs
- PE classes & Field Days
- STEM & Science Days
- Character education & enrichment programs

# Session Themes & Experiences

Programs are customizable and may include:

## Brain & Body Challenge (PE / Field Days)

- Movement games, obstacle courses, team relays, and reaction challenges

## STEM in Motion (STEM & Science Days)

- Hands-on lessons using motion-based technology, strategy games, and physics exploration

## Teamwork & Leadership Quest (Afterschool & Character Development)

- Collaborative challenges focused on trust, communication, and leadership

## Dance Party Experience (Optional Add-On)

- High-energy dance games and movement-based fun that boosts coordination and creativity

## Tools & Equipment Used

- Nex Playground (motion-based gaming system)
- Giant Connect Four
- Floor ladders & obstacle tubes
- Parachutes & resistance equipment
- Scooter boards & football throwing nets

Session Type	Duration	Starting Cost
Single Session	75 Minutes	\$375
Half - Day Event	3 Hours	\$950
Full Day Schoolwide Event	6 Hours	\$1,500

*Price Varies based on the amount of student participants.*
